

Telepsychiatry that helps your healthcare organization **better support the patients who need it most**

Reduce wait times, decrease no-show rates, and improve behavioral health for your whole community.

Partnering with Iris means your organization will receive a committed provider who is compassionate to your patients and flexible with your staff. Your provider's regular dedication to your clinic will alleviate worries about coverage and continuity to meet your community's needs.

Your organization will benefit from a provider carefully matched to meet your needs, the in-depth expertise of our clinical leadership team, and best-in-class support to ensure your organization is set up for long-term success.

We partner with CMHCs, CHCs, FQHCs, and CCBHCs all across the country to deliver top-quality behavioral health care that fills their care gaps and helps serve their communities.

We are a medical group comprising psychiatrists, PMHNPs, and LCSWs, and we will work closely with your organization to recommend and match the right provider type for your needs.

We guarantee that by the end of our match process, you'll have a provider who will not only fill your care gaps, but who your care team and your patients will love.

Let the data be your guide

98% Provider satisfaction

98% Partner satisfaction

92% Partner retention (year over year)

1.5 M+ Patient encounters and growing

"Iris approaches their partnerships with dedication and a commitment to service. They've helped us meet our mission to the communities we serve and facilitate psychiatric services that we wouldn't have been able to provide otherwise."

JENNETTE HITCHCOCK, CHIEF OPERATIONS OFFICER, AROOSTOOK MENTAL HEALTH CENTER

About Iris Telehealth's Value for your Organization

PSYCHIATRIST-LED

Our operations are led by physicians who understand the needs of both providers and patients. Because of this, we have an intimate understanding of clinical practice and superior knowledge of the ins and outs of the behavioral health world.

JOINT COMMISSION ACCREDITED

Iris Telehealth is accredited for behavioral health by the Joint Commission (TJC), a global leader in healthcare accreditation. We are committed to providing our partners with the highest quality behavioral health services.

SUPPORTIVE PARTNERSHIP

Our clinical, IT, and medical staff services teams are on standby to help your organization with everything from paperwork to patient workflows. Our primary goal is to help you effectively and efficiently serve your patients, reducing your no-show rates and waitlists so you can provide the best care possible to your community.

TECHNOLOGY NEUTRAL

Our team will work to fully integrate our providers into your preferred tools and platforms (including your EMR) and will provide on-going IT support so technological issues never get in the way of top-notch care.

How it works

1. Kick-Off

We'll help identify what your clinic's telepsych needs are.

2. Choose Your Provider

We'll present best-fit candidates from our top 3% of vetted providers.

3. Credentialing

Once you choose a provider, we'll help your team through the licensing and credentialing processes.

4. Technology Set-Up

We ensure you have the video conferencing software you need and that your provider is set up to document in your EMR.

5. Go-Live

We ensure connections are smooth for patients and staff from day one.
